BEAUTIFUL SKIN  
BEYOND YOUR FACE

---

Would you like to  
**FIRM** and **TONE**  
your neckline?

---

This treatment specifically focuses on the skin below the neck and above the breast, known as your **Décolleté**.

The **Quanta Skin App**, unique to the Chrome Lase Station, is a noninvasive laser procedure that **stimulates collagen** and **targets age spots**.

Extending beyond the face, this treatment completes your look and reveals your skin's natural beauty.

# WHO

is it right for?

**Décolleté** is recommended for **anyone** who wants to **improve** the appearance around the **lower neckline**. While we often focus on the skin on our face, sun damage, redness and age spots on the chest can give away one's true age.

---

# HOW

does it work?

**Décolleté** uses different laser technology to target specific areas of your skin. One laser stimulates collagen and elastin production to **firm up** skin, promoting fewer lines and wrinkles. Other lasers on the same device help with color correction to create **more even-toned** skin.

Décolleté offers a **non-invasive solution** with **limited down-time** and visible results after just a few sessions.
