WHO

is it right for?

NaturaPeel is recommended for anyone looking to **instantly** improve their skin's appearance.

Eliminating impurities like dirt and oil, and boosting collagen leaves **skin smoother, more radiant and youthful looking**.

NaturaPeel is a great treatment to have before a special event or as a part of an ongoing skincare regimen.

HOW

does it work?

First, a bamboo charcoal cream is applied to **remove impurities** that typical cleansers may leave behind. The cream is also enriched with **antioxidants** and **growth factors** to help stimulate collagen.

The laser may be used to dry and remove the cream mask. After the cream is removed, the procedure finishes with a warm laser treatment that **boosts collagen and elastin production** creating a tightening effect.

NaturaPeel is a **quick, comfortable** and **no-downtime** procedure.
